

# Gideon Heilbron

## Senior Front-end Developer

With **13+ years experience**, I've worked on a wide variety of projects creating clean, re-usable code using the latest techniques. Because I have a lot of **design experience** I can easily fill the gap between **design and front-end**. Lately I've been working on a lot of **React and Vue** projects.

## SKILLS

### SPECIALTIES

React - Vue - HTML5 - CSS3 - SCSS - Wordpress -  
Craft CMS - Usability - Design - Accessibility -  
Animations - Firebase

### (SOME) EXPERIENCE WITH

Next.js - Nuxt - PHP - Apache - NGINX - cPanel/WHM  
- Plesk - Linux - AWS - Google Cloud - Jest - Enzyme  
- React testing library - Cypress

### SOFTWARE/TOOLS

Figma - Sketch - Photoshop - Illustrator - Git - NPM -  
Yarn - Webpack - iTerm - VSCode - Adobe Premiere -  
Final Cut Pro - Adobe Audition

### PERSONAL SKILLS

I'm very quick at integrating in a team, but also very capable of running all front-end myself.

I'm fast at adapting my toolset and skills to a clients needs, speaking up about accessibility and defending users needs/wants.

## EXPERIENCE

### FREELANCE FRONT-END/UI DEVELOPER

January 2017 - Present

After working full-time for a while I decided to freelance and have the ability to pick my own projects. While freelancing I learned a lot, including Vue, Ember and Firebase.

### LEAD DEVELOPER

Strakzat | May 2022 - October 2022

### SENIOR FRONT-END DEVELOPER

Mangrove | June 2015 - December 2016

While working at Mangrove I worked on a lot of projects including Profile Tyrecenter. I made the front-end for Ruby on Rails and Wordpress projects, used Google Maps API, SCSS, BEM, Gulp, Grunt, etc.

### FRONT-END DEVELOPER & WEBDESIGNER

eFocus | Juli 2014 - May 2015

At eFocus I worked on projects like PON, Tools4ever, Athlon and many more. They used .NET together with Sitecore and Episerver as the CMS. I've used tools like Gulp and Grunt to compile SCSS and minify assets.

### FRONT-END DEVELOPER & WEBDESIGNER

Fetch! | January 2013 - June 2014

I designed and developed a wide variety of websites and web apps while working at Fetch! I've build front-end for PlusOne, Dog and Pony, Natuur & Milieu and many more.

### FRONT-END DEVELOPER & WEBDESIGNER

i-Aspect | April 2011 - December 2012

## FEATURED CLIENTS

### **ANWB**

October 2022 - July 2023

React - Preact - Styled components - Jest - Enzyme - Cypress - Figma

For the ANWB I worked as a single front-end developer, filling a gap left after all front-end developers left the team. I had to quickly integrate in the team and work on multiple React and Preact applications, build for users to change their road assistance package online.

### **FABRIQUE**

October 2021 - December 2021

HTML5 - SCSS - BEM - JavaScript - Webpack - Git - Figma - JS + CSS Animations

At Fabrique I helped build a new website/platform inside an existing framework. Design, animations and usability were their highest priority.

### **STRAKZAT**

October 2019 - November 2021

React - HTML5 - SCSS - BEM - JavaScript - Webpack - Git - Sketch - Figma - Firebase - Next - Vercel - Craft CMS - CSS Animations

For Strakzat I worked on a range of different projects including a dashboard web app for Gosselin, a brand new marketing website for Oaky and a web app for YourDesq.

### **PIGGY**

December 2019 - April 2021

React - HTML5 - SCSS - BEM - JavaScript - Storybook - Webpack - Git - Sketch - Zeplin - CSS Animations

Piggy was looking for an experienced React developer with a design background to improve and rebuild their complex dashboards and improve UX. Besides creating new and improving React components, I singlehandedly completely rewrote their SCSS and introduced a clear class and styling structure using BEM.

### **WOONZ**

January 2019 - October 2019

Vue - HTML5 - SCSS - BEM - JavaScript - Bootstrap - Webpack - Git - Sketch - Zeplin - Elasticsearch - .NET - Razor

### **REDKIWI**

December 2017 - April 2018

HTML5 - SCSS - BEM - Javascript - jQuery - Gulp - Git - Sketch - PHP - Typo3 - Magento - CSS Animations

### **BRIDGEVEST (now called Keylane)**

April 2017 - October 2018

Vue - HTML5 - SCSS - BEM - Gulp - Git - Typescript - PostCSS - Sketch - Photoshop - Coldfusion - Lucee - Mura CMS

For Bridgevest I worked on 30+ projects ranging from a new dashboard for a.s.r. to email campaigns and web apps (Vue).
